

Lime Heating job vacancy

Role: Gas and plumbing manager
Contract: Permanent, 45hrs per week
Salary: £40,000–£48,000

Company description

Serving Milton Keynes and the surrounding areas, Lime Heating is an established team of fully-accredited, Gas Safe registered heating engineers and plumbing professionals. We are committed to providing unrivalled services with clear and reliable communication and comprehensive knowledge of safety standards and regulations. Our dedication to customer satisfaction and drive for excellence make us confident in becoming the go-to choice for all heating and plumbing needs. Our services include gas boiler servicing, gas safety checks, boiler installation, boiler repair, kitchen and bathroom plumbing, gas pipework, warm air heating, and boiler cover plans.

Role description

This is a hands-on leadership position combining technical expertise, team support, and operational management. You will play a key role in maintaining our high standards while supporting both engineers and customers.

You will lead by example, providing technical guidance, stepping in when needed, and ensuring jobs are delivered efficiently, safely, and to the quality Lime Heating is known for.

Our work directly affects customers' comfort and safety, particularly during heating emergencies. As Plumbing & Gas Manager, you will be central to ensuring our customers continue to receive reliable, professional service.

From overseeing boiler installations and system upgrades to resolving urgent breakdowns, your leadership will help maintain the strong reputation Lime Heating has built across Milton Keynes and Buckinghamshire.

Key responsibilities

- Manage and provide day-to-day support to our existing plumbing and heating engineers
- Provide accurate and professional quotations for boiler, heating, and plumbing works
- Handle technical customer enquiries, offering clear, honest, and knowledgeable advice
- Pick up emergency work during the day when required
- Provide cover on site when engineers are sick or additional support is needed

- Arrange and organise materials for upcoming jobs to ensure smooth project delivery
- Monitor and check van stock levels to maintain efficiency and readiness
- Oversee fleet condition, ensuring vehicles remain clean, organised, safe, and presentable
- Maintain high standards of workmanship, safety, and customer care across all projects

Skills & requirements

- Proven experience in plumbing and heating, including boiler installations and fault finding
- Current Gas Safe registration
- Strong technical knowledge across domestic heating systems
- Experience mentoring or managing engineers preferred
- Confident in quoting and surveying works
- Excellent communication skills with both customers and team members
- Strong organisational skills and attention to detail
- Ability to remain calm under pressure, particularly during emergency situations
- Full UK driving licence with a clean record
